***Allowable Subject Matter***

Claims 3-9, 13-16, and 21-24 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed 23-APR-2004 are persuasive with the understanding that the term "molded plastic parts" has been substantially defined by applicant on pages 1 and 2 of the instant specification. Applicant's definition of the term clearly suggests that the molded part contains a photosensitive material which inherently provides antecedence for the term "photosensitive material" in the claims. Furthermore, it is the examiner's position that the molded part referred to in the claims as "plastic molded parts" is substantially the same product as set forth by applicant's definition above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
